Subject: FCC Reduces Backlog of Broadcast Indecency Complaints by 70% (More Than One Million Complaints); Seeks Comment on Adopting Egregious Cases Policy

I oppose any changes to the current FCC indecency standards that would allow television or radio stations to broadcast expletives or nudity on the public airwaves, even if brief or "fleeting."

The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives or nudity.

Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives or nudity on FCC-licensed stations.
